para manutenção.

de concreto armado

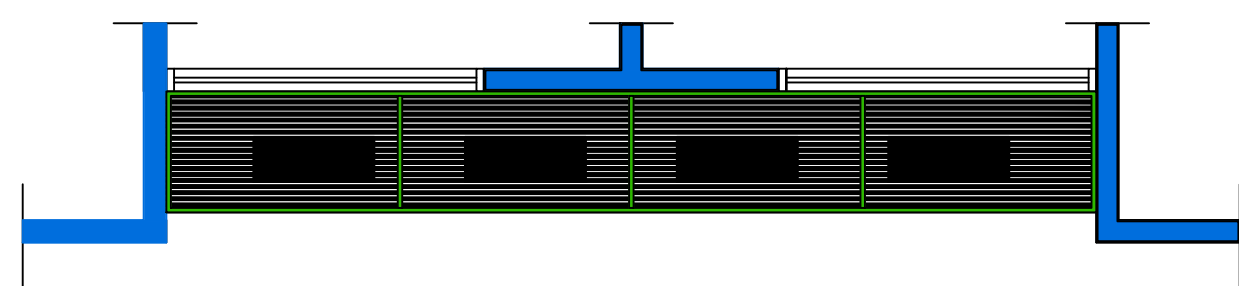

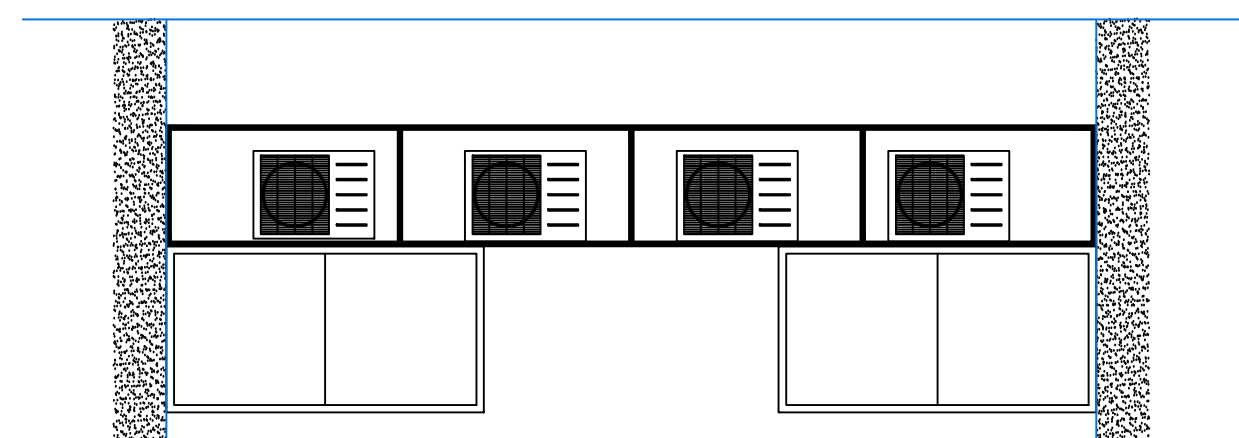

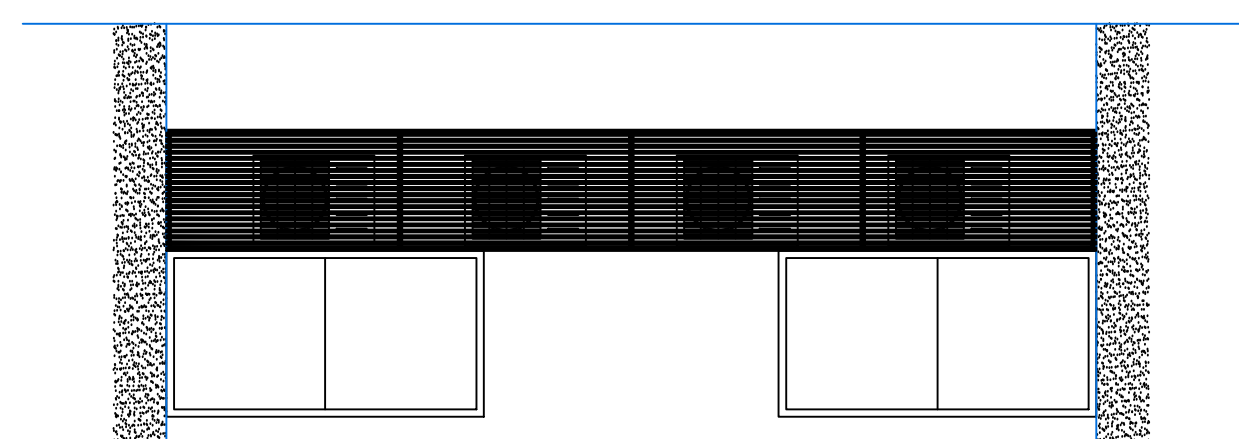

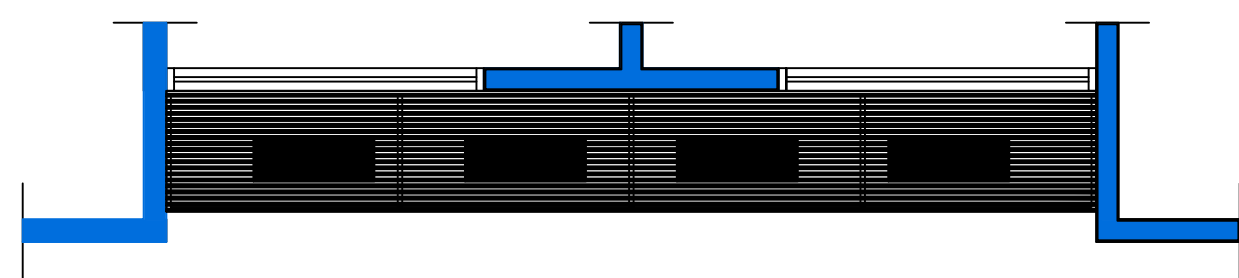

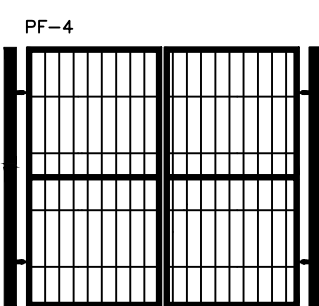

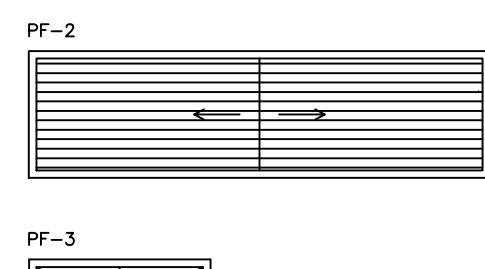

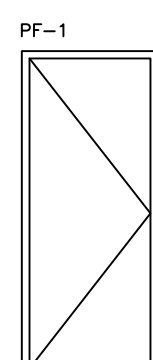

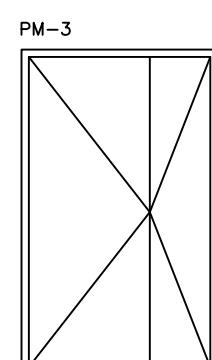

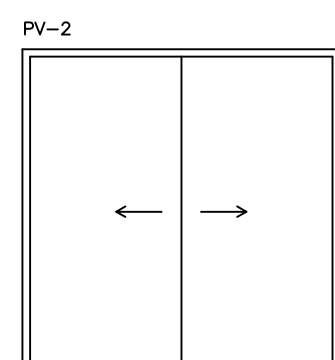

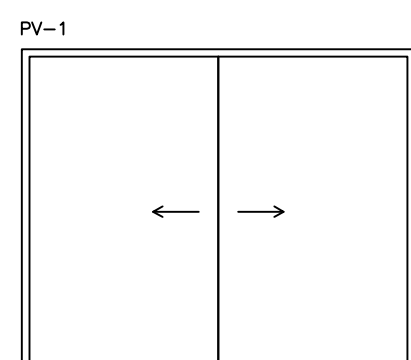

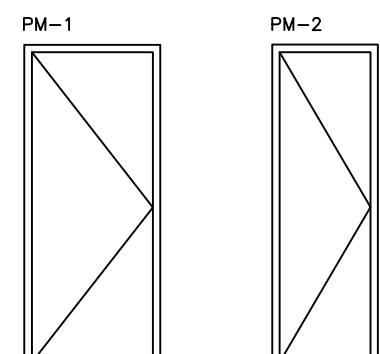

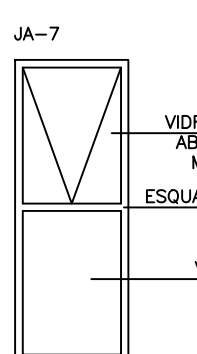

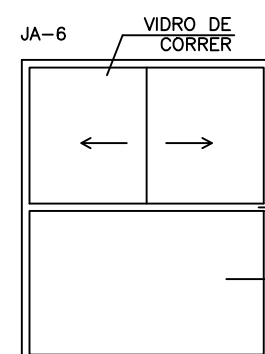

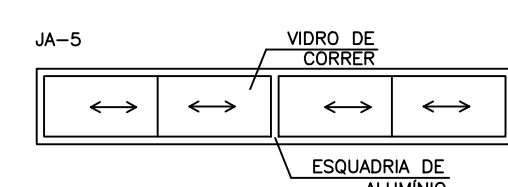

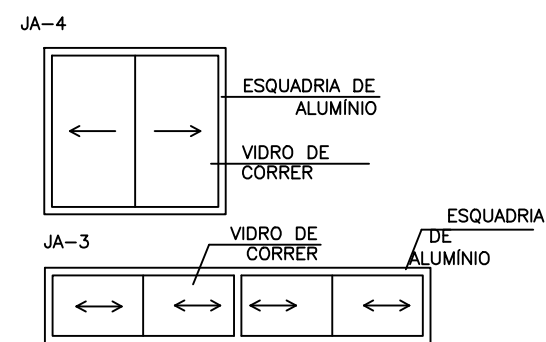

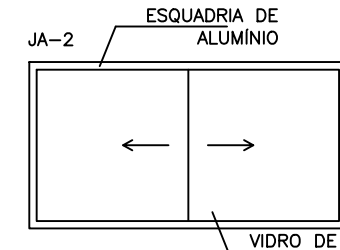

medidas: 0,30x0,60x2,85

VISTA A-A

JA-1

The diagram shows a rectangular container divided horizontally. The upper half contains a large inverted triangle with its base at the top edge and its vertex pointing towards the center of the bottom edge of the upper section. A horizontal line segment connects the two points where the triangle's sides meet the right wall of the container. A vertical line segment extends from the vertex of the triangle down to the bottom edge of the container.
